

Dear Parents,

We welcome you and your child to Faith Chapel Learning Academy. It is our privilege to serve your family. We are excited at the possibilities that your student will experience while enrolled at FCLA.

We believe that each young child is a special creation of God, and that he or she has been given his or her own unique personality.

Our goal is to see that each child is developed for the glory of God and also grows to their highest potential.

Our challenge is to make learning fun.

Our daily program is planned to stimulate each child's particular strengths and foster spiritual growth, social awareness, and self-confidence along with intellectual ability and physical development. This can be achieved through a consistent, encouraging Christian community.

We are proud of the phonics-based learning to read program at Faith Chapel Learning Academy. Our 4/5yr. old students will be reading by the end of May and are ready to attend an advanced Kindergarten class in the fall.

We are continually working towards making this the second best place to be. We recognize that the Lord has entrusted these children to you. You are, in turn, entrusting them to us for a few hours each day. Our prayer is that we will be a blessing to you and your child throughout the year.
